		<b>Vitamin E, Min</b>	100 IU/ lb

### Product Ingredients

Processed Grain By- Products, Molasses Products, Roughage Products, Monocalcium Phosphate, Dicalcium Phosphate, Salt, Calcium Carbonate, Calcium Hydroxide, Magnesium Oxide, Hydrogenated Soybean Oil, Manganous Oxide, Manganese Sulfate, Zinc Oxide, Zinc Sulfate, Copper Chloride, Copper Sulfate, Sodium Selenite, Ethylenediamine Dihydroiodide, Calcium Iodate, Cobalt Carbonate, Vitamin A Supplement, Vitamin D-3 Supplement and Vitamin E Supplement.

### Feeding Directions

1. Feed 1 block per 5 head of cattle or horses. This allows all animals equal access to blocks.
2. Place blocks where animals congregate. Locate blocks throughout pasture, placing them near water and loafing areas. Maintain adequate distance between blocks (10 feet minimum).
3. Do not allow animals to run out of blocks. When a block is half- consumed, place a new block near it. Place very small pieces in troughs or feed pans.
4. Cattle and horses will consume an average of 5 oz. per head daily. When cattle and horses consume the block at the recommended rate, it will supply 3 mg of supplemental selenium.
5. Blocks can be fed to horses in confinement. Exact location of blocks to obtain desired consumption will vary between confinement feeding programs.
6. Feed as the only FREE CHOICE source of salt, other minerals and vitamins.

**CAUTION: Follow feeding directions.** Consumption of selenium should not exceed 3 mg per head per day.

**WARNING:** This product, which contains added copper, should not be fed to sheep or any species with a low tolerance to supplemental copper.

This Product Information Sheet is not intended to replace the Product Label.  
Always read the Product Label for the most current nutrient content and feeding directions.
